

09-11 February 2026

From Micro To Macro in Mathematical Biology

Recent advances in the
modeling and analysis of
biological systems

Organizers

Martina Conte, Politecnico di Torino
Nadia Loy, Politecnico di Torino
Marta Menci, Università Campus Bio-Medico

Location

Department of Mathematical Sciences "G.L. Lagrange"
Politecnico di Torino
Corso Duca degli Abruzzi 24

Invited Speakers

Giulia Laura Celora
University of Oxford (Oxford, UK)

Raluca Eftimie
Université Marie & Louis Pasteur (Besançon, France)

Carles Falcó
University of Oxford (Oxford, UK)

Laura Kanzler
CNRS, Paris Sorbonne Université (Paris, France)

Tommaso Lorenzi
Politecnico di Torino (Torino, Italy)

Giulio Lucci
Sapienza University of Rome (Roma, Italy)

Diane Peurichard
INRIA Paris, Paris Sorbonne Université (Paris, France)

Christina Surulescu
RPTU Kaiserslautern-Landau (Kaiserslautern, Germany)

Chiara Villa
CNRS, Université Paris Cité (Paris, France)

Funded by
the European Union

Ministero
dell'Università
e della Ricerca
