

Thematic semester on

Department of Mathematical Sciences, Politecnico di Torino

September - December, 2019

www.polito.it/disma-excellence/NDR/index.html

Aimed at gathering researchers from different disciplines and backgrounds with common interest in the mathematical foundations of Network Dynamics and Resilience, the thematic semester in Fall 2019 will be structured around two main workshops and several scientific initiatives, such as seminars and PhD courses. Partial financial support is available for selected junior visiting researches. Please, contact excellence.disma@polito.it for further information.

Scientific committee

Francesco Bullo, *UCSB*

Carlos Canudas-de-Wit, *CNRS*

Giacomo Como, *Politecnico di Torino*

Munther A. Dahleh, *MIT*

Fabio Fagnani, *Politecnico di Torino*

Matthew O. Jackson, *Stanford*

Jeff S. Shamma, *KAUST*

Sandro Zampieri, *Università di Padova*

Workshops

September 24-27, 2019

Resilient control of infrastructure networks

November 5-8, 2019

Network dynamics in the social, economic, and financial sciences
